

The only all-in-one scheduled handwashing reminder and timer.

Introducing Scrub Buddy

- Helps ensure the health and safety of employees and customers
- Prompts employees every 30 minutes to wash hands throughout their shift
- Times each handwash for 20 seconds, which is what the CDC recommends*
- Includes individual keys for up to eight staff members, assigned at shift start

Easy-to-Use

- No installation required
- Magnetic mount or optional bracket
- Requires four AA batteries (included)
- Pre-programmed with 30-minute recurring alerts and 20-second wash timers
- Alerts can be easily reprogrammed between 0:00 (mm:ss) and 23:59 (hh:mm)

* The CDC recommends foodservice and retail workers wash their hands every 30 minutes.

How Scrub Buddy Works

- Employees press an assigned number key when they start work and their first 20-second handwash countdown begins
- When the countdown reaches 00:00, Scrub Buddy provides an audible alert and displays "Done" on the LCD screen, to indicate that the handwash cycle has completed
- Immediately afterwards, Scrub Buddy automatically starts the timer for the 30-minute handwash reminder
- When the countdown reaches 00:00, employees receive an audible alert and "Hand" is displayed on the screen, indicating that it's once again time to wash hands
- Employees press their key at the start of the handwash, and the 20-second countdown begins (as an option, Scrub Buddy can be programmed to automatically start the handwash countdown without having to press the key)
- Handwash reminder and timer alert cycles continue throughout the entire shift and stop when employees press their key for 3 seconds at the end of their workday
