

IMAGINE HAVING A VIRTUAL VIEW  
INTO YOUR RESTAURANT...

Are the coolers  
and freezers  
working?

Are checklists  
being done and  
on time?

Are corrective  
actions being  
taken?

Is the restaurant  
clean and ready for  
customers?

## TRANSFORM YOUR RESTAURANT REALITY WITH FSM

# THE PAPERLESS CHECKLIST AND HACCP CLOUD MONITORING SOLUTION

Food Safety Manager (FSM)

## PROTECT YOUR BRAND WITH **SCK® FOOD SAFETY MANAGER**

SCK Food Safety Manager is a part of the Kitchen Brains Genius Suite. The Genius Suite is a growing family of cloud-based solutions that help support efficient operations, compliance with HACCP regulations, and delivery of hot, fresh, available food in commercial kitchens. With flexible and seamless integration across platforms, Food Safety Manager can also monitor coolers and freezers with Kitchen Brains smart sensors for real time monitoring.

- BYOD (Bring Your Own Device) IOS and Android Compatible
- Bluetooth or Digital Probe for the most accurate temperature reading
- Automatic prompting and recording of remedial actions
- Checklist forms can be customized and updated through one central portal
- Smart Sensors monitor your coolers and walk ins sending alerts to your smartphone or tablet

## HACCP COMPLIANCE

*Paperless HACCP Checklists and Daily tasks for all your restaurant needs*

## HISTORICAL DATA

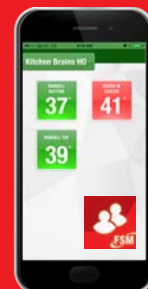

*All data stored in the cloud for easy access for all temperature submissions*

## TEMPERATURE MONITORING

*24/7 Cooler and refrigeration monitoring with wireless smart sensors*

## ANYWHERE, ANYTIME

*Monitor all locations from your Smartphone or Tablet to ensure food safety and temperatures are accurate*
